

Lumitec

- Solely focused on the design and manufacturing of marine LED luminaires
- More than 80% of our products are manufactured in our Delray Beach, FL facility.
- Manufacturing and logistics support also provided by our sister company from their 100,000 sq. ft. facility in Warminster, PA. – Made in the USA!
- Majority of products are CE certified, and recognized by USCG as ignition protected / intrinsically safe
- The value leader in high quality Marin LED lighting

Progress since inception

- Expanded product line – now more than 80 SKUs to address nearly any on-board lighting need
- Developed strong aura of quality and performance for the Lumitec name
- Recognized by discriminating boat buyers
- Excellent press coverage / very strong independent reviews of various products
- Launched online advertising campaigns
- Products now in use by high profile OEM's – increased awareness and implicit 'endorsement'

- Products in use by US Special Forces, Department of Homeland Security, and USCG
