JAVELIN 600X UNDERWATER LIGHT

Style and performance unite to create the all-new Javelin 600X underwater light. Designed for high performance wake/ski boats, the Javelin 600X boasts a solid naval bronze housing with a proprietary plating process to deliver a brilliant polished finish in a contemporary rectangular design. Leveraging the same "smart light" technology found in our market-leading SeaBlazeX2 series - Javelin offers the same high performance (6000+ lumens), full-color RGBW Spectrum output, simple surface mount installation, and the ease of operation only found with Lumitec products.

Javelin 600X - Underwater Light

Output:	Full-color RGBW Spectrum
Lumens:	6,000+
