

ZAMBEZI

Pontoon Boat Lights

Surface Mount Underwater Lights

UNDERWATER LIGHTS

Power Line Instruction

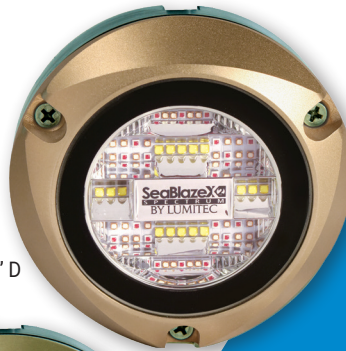

Surface Mount Underwater Light with no through-hull wiring holes required.

The Zambezi underwater light series are the only underwater lights on the market specifically designed for Pontoon Boats. A completely sealed surface mount design allows lights to be applied to situations that require surface run wires. From Pontoon Boats to Floating Docks, the application possibilities are limitless for this versatile and durable surface mount underwater light.
